@creativibes.digital

About Us

 Creativibes has provided full range of digital creative services to various businesses for over 10 years.

Our experience helps to define the best online strategy to serve your business, marketing and sales needs. Our services vary from Software UI/UX development, Website UI/UX development, Mobile Application UI/UX, Print Design, Branding, Graphic Design, Digital Marketing, SEO and a lot more. We proudly provide 360° digital creative services.

BUILDING THE **FUTURE.**
ONE **BRAND** AT A TIME.

Our Vision

 Imagination will often carry us to worlds that never were.
 We simply capture the pure essence of wild imagination.

Usability

Responsive, Flexible &
User Friendly Solutions

Branding

Building your brand's mark
in the digital market

Visibility

Getting you the
exposure you deserve

Conversion

Efficient channeling &
lead generation

How it Works

 Our six step framework allows us to break projects down into monitorable progression phases with optimal results.

Planning

We discover what the needs, wants, and objectives are. This allows us to thoroughly plan a complete project up front, avoiding costly delays and unforeseen challenges.

In this phase, we create mockups and prototypes based on earlier discussions. By allowing you to review a visual picture of our understanding of your needs.

Design

We begin the process of building your product, designing and developing it. We follow technical and design specifications, and perform regular functional tests.

Build

How it Works

We place your business ahead of your competition, fully dedicated to finding the best solutions for you.

Testing

We perform thorough quality testing prior to final launch. We simulate heavy stress to measure performance, and test various browsers, operating systems, and mediums.

The live launch of your site or app, delivery of your designs or marketing campaigns. We provide full monitoring and support during the launch period, ready to quickly address any issues that arise.

Launch

Support

Once your project is done, you'll still require a technical partner for ongoing needs. Support for our completed projects, includes further optimization.

Our Services

Innovative range of creative and digital solutions for business, individuals or enterprise all under one roof.

Getting Registered

Connecting to Public Health Network
Be a part of enabling epidemic surveillance outreach program of NIH

Benefits of Registering

- Private sector Hospitals, Laboratories, Clinics and other Institutions can now join the public health space for exchange of information.
- Private Sector Laboratories can share epidemic related data in Public Health domain enabling public health contributions.
- Freely log in samples and receive results.
- Be able to maintain a repository of epidemic samples and reports.
- Get access to trends and analytics of your epidemic samples.
- Become a recipient of NIH advisories automatically.

VOCS

VOCS is an app dedicated to employee mental health and well being. The app has a very calming UI/UX which offers employees of our client to chose from various feelings upon which it offers them a famous personality at random who felt the same but used that feeling to their advantage and became successful.

The app is built using Flutter which ensures cross platform availability. It also uses REST API to fetch data from the database in real time which ensures cross platform data integrity and update.

FREE PSYWC

The logo consists of the word "FREE" in a vertical, blue, sans-serif font on the left. To its right, the word "PSYWC" is written in a dark blue, outlined, sans-serif font. A blue flame icon is positioned above the letter "Y", and a black star icon is positioned inside the letter "C". The entire logo is set against a light-colored wall with shadows from a window on the left.
